Subject: Termination of Candidacy – Selectboard 2021

I have decided to terminate my run for Selectboard in Stockbridge because I cannot commit to the time I think is required to do the job the way I think it should be done. As the events of the last several weeks have conflicted with other previously made commitments, it has caused a shift in my priorities. To me this means, if elected, I would have to take a minimalistic approach toward the Selectboard position which is unacceptable to me and is not what our Towns People deserve.

I plan to continue my current role on the Planning Commission and look forward to working on the future revision of the Town Plan. This is a commitment which I can keep going forward.

Thank you.

Bill Johnson
